Qualifications: If elected, this will be the fourth term I have had the privilege of serving in Granite School District. During my time on the board we have had a number of successes. We were able to purchase the Granite Education Center. This building now serves thousands of students every day in a variety of subjects. Recently we were able to pass a bond that will enable us to rebuild two High Schools, air condition a number of schools and build much needed elementary schools on the west side of the valley. I hope to be able to see these projects through and continue to serve the patrons of Granite School District.
